Profile

Tim Donnelly, PT, MPT has been practicing Physical Therapy in the out-patient orthopedic setting since graduating from Marquette University in 2003. He has been serving the therapy needs of the Bradley-Bourbonnais community since 2006 and is very excited to continue to do so upon recently joining the IBJI team in July 2020.

Tim has developed a wide orthopedic knowledge base and skill set to successfully treat most all musculoskeletal diagnoses. Having maintained a long-standing relationship with the local orthopedic surgeons, he is very adept at assisting patient's in their post-operative recovery process and ensuring that their goals are met. Tim was involved in the implementation of a same day total joint program at the local surgery center. He works with those patient's the day of surgery to ensure a safe return home avoiding a hospital stay.

Tim has been a lifelong resident in the area and enjoys being active with his wife and 3 children. He coaches soccer and basketball, but the family is involved in many more clubs and activities throughout the year. Tim also enjoys fishing and hunting and wishes he could golf more often!

Education

- Marquette University, Master of Physical Therapy
- Marquette University, Bachelor of Biomedical Sciences
