Profile

Jaimie earned her doctorate in physical therapy at the University of St. Augustine in San Diego and has been part of the Illinois Bone & Joint Institute team for over 9 years. She has been working as a physical therapist at IBJI since July 2013. Jaimie enjoys working with a wide variety of orthopedic and musculoskeletal injuries but has found a particular interest in manual therapy. She enjoys treating diagnoses ranging from post surgical to sport injuries. Her goal is to educate and empower her patients to manage their symptoms and alleviate pain. She also loves taking a variety of continuing education courses. She is proud to work for a company that prides itself on quality of care, team work, and a collaborative approach to “move better, live better.”

Jaimie recently moved from the city to the Northern Suburbs. In her free time she enjoys taking different workout classes, hiking, trying new restaurants (especially brunch spots!), and spending quality time with her growing family.
