Profile

As an occupational therapist I strive to carry out the values and ethics of occupational therapy by using therapeutic techniques to improve or maintain meaningful aspects for all individuals that I treat. I want to treat the whole individual and create a rapport and environment that will promote all aspects of the individual, in order to work on their total wellness goals. My goal is to continue growing in the field with certifications to aid multiple injuries and working with athletes.

Things I enjoy doing: Playing and watching sports, spending time with my family and friends, creative arts, cooking, traveling, exercising.

Education

- Undergraduate, Carthage College
- Graduate, Concordia University of Wisconsin
