Profile

Biji graduated with her Doctorate in Physical Therapy from Saint Louis University. She worked in outpatient physical therapy for 4 years then transitioned to a position as a Travel PT for 2 years. She joined the team at IBJI in December 2019.

Though she has experience treating a variety of orthopedic conditions, she particularly enjoys treating upper and lower back conditions as well as knee injuries. Biji takes a holistic approach to treatment and sees the importance of treatment beyond the area of pain or injury as well as making the patient the focus of care.

When she is not working, Biji enjoys spending time with friends and family, seeing plays and musicals, and enjoying the outdoors.

Education

- Doctorate of Physical Therapy, Saint Louis University
