Profile

Chris Scholten, joined the IBJI family in 2017 working as a Rehab Tech while he attended school to be a Physical Therapist Assistant at McHenry County College. With all the years of playing sports and exercising, Chris sustained numerous injuries and developed a love for rehab.

Chris enjoys working with a variety of patients, but especially sports related injuries. Seeing the determination of athletes wanting to get back to their love inspires Chris to develop treatment so his patients can reach their full potential.

In his free time, if he's not watching the Cubs or Bears, he loves going for a run, exercising or spending time with his wife, dog and his new addition, baby boy! Oh, and he loves food! If you get the chance to work with him you will more than likely talk about food!

Education

- Bachelor's Degree, Learning and Behavior Specialist (Teaching), Illinois State University
- Master's Degree, Curriculum and Instruction, American College of Education
- Associates Degree, Physical Therapist Assistant, McHenry County College
